

## Checklist for the submission of training documents for accreditation

This checklist is to be completed by the training provider and is intended to ensure that the submitted training documents are formally complete.

If individual check points are not relevant from the training provider's perspective, this must be conclusively justified in the comments field.

Formally incomplete documents will be rejected without a content check.

Name of the training provider: OpenValue

For level / module: CPSA-F

Date and name: 2023-06-07, Bert Jan Schrijver (bertjan@openvalue.nl)

No.	Question	Files/folders	Done?
<b>1.</b>	<b>General</b>		
<b>1.1</b>	Are the documents available as PDF?	Yes, see individual PDF files below.	<input checked="" type="checkbox"/>
<b>1.2</b>	Is the seminar schedule available?	seminar-schedule.pdf	<input checked="" type="checkbox"/>
<b>2.</b>	<b>Documents/Slides</b>		
<b>2.1</b>	Are the documents/slides for the lecture available?	slides-day-1.pdf, slides-day-2.pdf, slides-day-3.pdf, slides-day-4.pdf	<input checked="" type="checkbox"/>
<b>2.2</b>	Are the slides numbered?	n/a	<input checked="" type="checkbox"/>
<b>2.3</b>	Do the slides contain a representation of the iSAQB?	n/a	<input checked="" type="checkbox"/>
<b>3.</b>	<b>Exercises</b>		
<b>3.1</b>	Are there exercise descriptions available?	aggregation-of-all-exercises.pdf (also integrated in the slides)	<input checked="" type="checkbox"/>
<b>3.2</b>	Does the document have page numbers?	n/a	<input checked="" type="checkbox"/>
<b>3.3</b>	Is there a sample solution? <b>[OPTIONAL]</b>	Yes, present in aggregation-of-all-exercises.pdf	<input checked="" type="checkbox"/>
<b>4.</b>	<b>References</b>		
<b>4.1</b>	Are there enclosed books? <b>[OPTIONAL]</b>	Software Architecture Foundation, first edition, by Starke & Lorz	<input checked="" type="checkbox"/>
<b>4.2</b>	Is there a document with cross-references to the learning objectives?	learning-goal-slide-deck-cross-reference.pdf	<input checked="" type="checkbox"/>
<b>4.3</b>	Does the cross-referenced document contain all learning objectives of the curriculum?	n/a	<input checked="" type="checkbox"/>
<b>4.4</b>	Does the document cross-reference each learning objective to specific places in the documents? (page number of the PDF document)	n/a	<input checked="" type="checkbox"/>

<b>4.5</b>	Are contents taken from technical literature referenced?	n/a	<input checked="" type="checkbox"/>
------------	--	-----	-------------------------------------

Comments:

- The material follows the current version (v2023.1) of the CPSA-F curriculum.
- All teaching material is enclosed as PDF. These are PDF prints of Asciidoc/Reveal.js slides. The slides contain buildups and animations that are not visible in the PDF's.
- All user-generated content by participants (mostly their solutions for exercises) will be stored in a Wiki and stay available to participants after the training.
- All participants will receive a hardcopy of the book Software Architecture Foundation, first edition, by Starke & Lorz.
- The speaker notes are printed on separate pages in the PDF's. If a slide has speaker notes, these are printed on the next page in the PDF (all speaker notes refer to the previous page in the same PDF document).
- The speaker notes contain a tag everytime a new topic/learning goal starts. For example: the speaker notes of a slide contain "topicStart:LG2-1". This means that learning goal 2-1 starts on the slide that the speaker notes belong to: the previous PDF page in the PDF.
- For any questions / remarks, please reach out to bertjan@openvalue.nl.

Changes in updated version of material submitted for re-review in June 2023:

- Feedback from participants from 3 trainings in 2023 has been processed
- (Almost) all remarks from the iSAQB review have been processed
- Updated exercises:
  - Exercise descriptions are more detailed now
  - Speaker notes contains additional structure, hints + tips for the trainers
  - Example solutions have been added for all exercises
